

January 16, 2025

1. Spring Semester starts January 21! Registration details are available at <https://www.morgancc.edu/spring/>
2. Students can begin taking courses this spring for MCC's new Bachelor of Applied Science degree in Education with an endorsement in Technology Education. Program details can be found at <https://www.morgancc.edu/area-of-study/bas-tech-education/>
3. In collaboration with CSU, MCC's STEM team hosted a "Little Shop of Physics" showcase December 13 on campus for the public. More than eighty-five people attended and had access to over forty different physics experiments that were kid friendly.
4. Registration is still open for a five-part Annie's Project workshop series for women in agriculture. Topics will include financial analysis and statements, estate planning, commodity marketing, crop/farm/business insurance, and more. The dates are January 13, 20, 27 & February 1 and 3. Register at www.morgancc.edu/annie
